

# Summary Statistics Report for School A-2 for 2013/2014 School Year

The following report summarizes the progress of School A-2 for the selected time period. Results reflect the number and percentage of students whose total PAR Score falls in below expected grade level, at grade level, or above grade level. The summary of instructional codes indicate the number of children who will require one-on-one assistance (Level 1); the number of children who will need small-group assistance (level 2); the number of children who will need small group and whole classroom experiences (level 3); and the number of children who should receive sufficient exposure for learning in whole classroom experiences (level 4). Children who are in the OK category are considered reading at grade level.
